

CHILDREN'S HEART SURGERY FUND

23rd May 2025

Nigel Brook
President, Director of Leeds Law Society
62 Wellington Street
Leeds
LS1 2EE

Dear Nigel,

Thank you so much for your amazing support for Children's Heart Surgery Fund during your year as President of Leeds Law Society. We have loved partnering with you and Rachel Windle and appreciate the hard work you do in raising funds for the charities you partner with. Please also pass on our utmost appreciation to every member of The Leeds Law Society who helped to raise an impressive £4,429.71 for CHSF.

Around 1 in 125 babies are born with a congenital heart defect in the UK, and in our region the Leeds Congenital Heart Unit (LCHU) is the specialist centre for any child born with a heart defect, covering a population of over 5.7 million.

Thanks to what you have raised, this can help to fund:

- 60 nights of accommodation so parents can be close to their babies & children and provide one less worry at such an emotionally stressful time.
- 4 INR kits for children following open heart surgery. An INR machine is a portable device which allows an individual to measure their own INR at frequent intervals. Results are then telephoned into the clinic, thus relieving travelling to hospital for both patient and families and helps to take away anxiety and give independence to the patients.
- 10 cot mobiles and mirrors which help to support physical, social and cognitive development in babies following open heart surgery.
- 53 Tesco vouchers so parents that may be struggling financially can purchase food and drinks whilst staying at the hospital and in the accommodation provided by CHSF.

We are a wholly self-funded charity and rely totally on the support of companies like yourselves to continue our work, so thank you so much, we could not do what we do without you.

Thank you from everyone at Children's Heart Surgery Fund.

Kind Regards

Amanda Warrent
